---

Hi, so I slept with him last afternoon...but I'm texting u because after that we were in bed for like 2 hours and he asked me if I watch porn, I said yes and why ...and he said he thought so cause for my age and the fact that I slept with only one guy before I'm not shy at all and that girls in my age he slept with were much more shy...so I guess its a good thing he said it right?
