ron and team-

while you were in los angeles i'd love for you meet co-founders of "living calender", barry josephson and matthew schuler. this was the start up with real time social networking components i was telling you about over coffee sunday.

if you have a moment before you leave they have a terrific demo to share. it's a unique product with nothing quite like it out there. i would adopt this when it lands in it's full form.

biz and i may come in as advisers to this. barry, matt and biz are trying to connect as i write you.

i'll let you take it from here.

thanks.
