 [ASW ATTACHÉ: Two to Tango - Step in time with Tudor](#)

You Always Take the Lead.

Confident, elegant and dynamic, you've never been afraid to dance to your own beat. You stand out in a crowd – or on a crowded dance floor. Step out in distinctive style with Tudor's Glamour Double Date, inspired by the passion and sophistication of the tango.

Perhaps the most seductive of dance genres, the tango is also the most technically demanding. The Glamour Double Date embodies this marriage of beauty and precision. Tudor reveals its sexiest moves in a timepiece featuring smooth, suggestive lines; a dramatic double date window; a sapphire crystal dial and a polished steel double-bezel. Adding to the allure is a small second counter adorned by the delicate Tudor rose pattern, reminiscent of the brand's 1930s logo and a romantic symbol associated with the tango.

Fancy Footwork

The tango's dramatic impact stems from the carefully calculated moves of its dancers. Designed with skill and performance in mind, the Glamour Double Date boasts a self-winding mechanical movement and a 42-mm case that is waterproof to 100 metres (330 feet). The retro-chic watch is fitted with a strap in black lizard or black calf with a crocodile pattern, both with folding clasp; or either a steel or steel-and-yellow gold bracelet with a Tudor Glamour clasp. It is an example of timeless style, equally suitable for a classic ballroom or modern nightclub.

Take it for a whirl:
