What starts as a bunch of chemicals goes through a complex process and end up as energy (physics) that drives life

There are only two ways you can make energy in any life form

Mitochondria or fermented sugars

Hi, the guy Steve saw is Asle Toje. He wants to set up a meeting with the deputy head of Fremskrittspartiet, Sylvi Listhaug and Steve. She is probably the next Chair of the party, and very likeminded with Steve. They can meet anywhere in Europe.
Steve can call him today. Am sending you Asle's coordinates now.
