I thought much more about your hesitancy for president. - I believe that there is some difference between that and other roles that you have considered. But in todays environment. assuming it will be politics , I think the risks are the same. Being head of council of Europe . Just means there are many countries with the same goal rather than just the Slovak parties. . more later

That is a very personal decision. - What I think warrants further discussion is , if you , as I believe you do , want to stay in politics. And the reason not to run is , as we have discussed , then I think it requires a cold assessment. You are under a microscope. The only question is how many eyes are looking and who's eyes are they
