I am not using any of the pills for the last 3 years . Cause I was so worry about my red spot on my face (the same as yours) and I was sure that it's cause I am allergic to something - so I decided not to take any of them + I didn't have a regular sexual life and non- of gynecologist recommend it

And if I decide to take them - I feel like it shouldn't be random pills ! Doctor should see my blood test - and chose right one for me (cause if it's not right now girl might have problems with her skin, over weight, emotional unstable - and obviously I don't want that)

Agreed- 1 . You are already emotional! 2 the newer pills have much less side effects. My doctor that reviewed your cyst report said she would try . No surgery!! We can FaceTime tomorrow or whenever convenient. I also will explain insurance

It is not hope. It is fact. And you can rest easy . Trying to make decisions re pills , surgery , health when you know so little is not smart. . sorry . You are going to drive yourself crazy . Tomorrow might work. Or wed. Your call. Sleep well you deserve it . No worry promise

I knew her very well. She drove herself crazy . Worrying and took her own advice and of her boyfriend. That knew little as well. She went to doctor after doctor. Anxiety and bad answers. Had a very bad ending. She was great. Smart but so lost and confused and worried . It was easy to have been another ending. But she didn't have a father and no one was strong with her .

Each time she went to a doctor they told her something a little different. . her boyfriend was afraid she would gain weight and not be able to earn money. It was horrible. Her mind drove her to throw herself out of the window.

No, Jeffrey - i didn't mean that I will not take medicine to fix my cyst ! I would love to have a medicine which can fix my cyst - no one told me that it is a medicine which can fix it , we talk about contraceptive pills - and the reason why I didn't take them it's cause I don't have a regular partner , so why should I ?

Contraceptive pills chosen correctly will most likely fix everything. Going to doctors for older women is not what you need. I spoke to three gyno. And each suggest contraception hormone etc

Medical treatments for ovarian cysts include:
Hormonal birth control pills to regulate the hormones and reduce the risk of developing more cysts.

The vaccination series can be started at age 9 years. Teen boys and girls who did not get vaccinated when they were younger should get it now. HPV vaccine is recommended for young women through age 26, and young men through age 21.
