Ok. Btw. If you read both things you will see the student looking up and down was in response to her not being appropriately dressed for the event she was tot work at. It was actually a kind disciplinary action by me rather than telling her outright she should change (as she apparently planned to).

Look. It is crystal clear that you will no longer be allowed to work there. They went over the top in describing your behavior . (solely as a result of your atnny attitude). Im concerned that after two appeals you will be found appropriately terminated. 99% likely. That will be more problematic. . 1. Someone could argue that you will go on a campaign to demonstrate the pettiness silliness and agenda based decisions . Giving pause to any future hires. For a sum certain you will settle. . . not great but ...

Interesting. Will ask Justin these questions. And will think of all options. All the ones you discussed are worth examining. Have decided I cannot this stand without doing anything.

The fact that you were asked not to return to your last school without notice. is problematic. . did you really send an apology to the girl on video. Or was that not true ? I agree you cannot let this stand , however the chess game played perfectly into their hands. Their documents are super well done. - you need to use your celebrity, writing skills . Speaking skills. , legally not strong. The only legal case I see is for you to sue Justin for being a fucking moron

Re girl on video. No. And we have email evidence of her subterfuge.

Docs are full of factual errors because of improper investigative procedures. There is more here than you are aware of. I agree need to get in front.

You should know university is being close mouthed here. Met my staff and they were told nothing about termination.

Justin sent me email he wants me to send to the dean ASAP. It looks ok to me. I forwarded to you.

Goal is to fight this internally and externally. If terminated have no chance of job in academia anyway. But if these allegations publicized with the facts they are going to look very improper.

All consumers digitized . Evaluated , they get points for certain behaviors . This is the next ten year plan. They say if you want our 500 million people buying X. We want Y .. and if xi says no Microsoft products. Its not like Donald asking people not to buy Toyotas. In china. The next day , no Microsoft products sell. . genius

All consumers digitized . Evaluated , they get points for certain behaviors . This is the next ten year plan. They say if you want our 500 million people buying X. We want Y .. and if xi says no Microsoft products. Its not like Donald asking people not to buy Toyotas. In china. The next day , no Microsoft products sell. . genius

Tom was the the top of the news in china. Xi , believes he has a better way to govern that he will be able to convince the world that the democratic US. Model. DOES NOT WORK. So he will offer an alternative system. Putting the belt road , made in china 2025 . And not allowing different views from that of the party . All purchases can be directed monitored and like a video game , the individual gets social reward points. Very clever
