If I throw a ball at the wall, when it has travelled halfway, it still has half the distance to travel. As it continues, the fraction left to travel continues i.e. one quarter to go, one eighth to go, one sixteenth to go, etc. since the denominator of the distance continues to double... I am thinking mathematically speaking, the ball never reaches the wall.

I am working on a public statement which is the appropriate thing right now, as part of the emotional public jury.. You will see it before I do anything.. I am back in Portland.. It is 6 am, and everyone else in the house is asleep, but I woke at 5 am with my mind buzzing and I needed to write to calm it, which is what I am doing.. Please don't call now as Nancy, and her brother and his daughter, who are visiting, are sleeping.. I accept that there may not be the basis of a lawsuit, legally... but the does remove the nature of confidentiality.

I should say, "which I believe is the appropriate thing right now". Also.. I just received a message from a scientist who claims he is willing to testify in court that [REDACTED] has fabricated claims in the past.. for what that is worth. anyway, you are right that the University has been vicious.. and my opportunity, if I have any, is to demonstrate that they have been too vicious.. back to writing now.

at this point to demonstrate bias and ridiculous nature of the process as well as the allegations.. both internally and to the public. I have no idea and no expectation of retaining my job, though miracles do happen (just not divine ones), but I will fight this initial appeal process because it is necessary, and also begin the public campaign which I will later be quite vocal about (as I agree it may be my one hope for any kind of public action in the near term).. as a part of the "this has gone too far and must be stopped" movement.

I will only carry Justin through the conciliation process, which I will lead. If that fails as you expect it will I will rethink, and if it seems worthwhile going through more formal grievance procedure I will move to a different law form of your choosing. I will also investigate a severance package of some sort after conciliation if necessary with the threat of a protracted legal and public process to use as leverage with uni. I believe this is largely consistent with your advice.

The reason I suggest using conciliation is Justins goal and demeanor , at and during that process. If he thinks this is a merit based case. As he has done to date. You will lose your chance at money

I agree with you about a lot of it. Which is why Nancy and I decided that I will control the conciliation process considering his advice and contributions of course, and if he disagrees we will ask him to leave.
