I asked Woody what he was watching and he said the movie “She” from the novel She Who Must be Obeyed and it’s by L. Rider Haggard. He said he thinks of me.

Tortious interference with business relationships occurs where the tortfeasor intentionally acts to prevent someone from successfully establishing or maintaining business relationships with others. This tort may occur when one party knowingly takes an action that causes a second party not to enter into a business relationship with a third party that otherwise would probably have occurred

To do that shows that djt is center of gravity of this movement and not me-- will never do - they are transitory figures -- the dc game is to succumb to that -- it's why I never did before joining campaign -- I could have been the trump whisperer years ago-- avoided on purpose

In an interview on Sunday, the chancellor defended her decision to seek a European solution. "We are living in times when there is a lot at stake," Ms. Merkel said, adding a warning that Europe "is perhaps more in danger than we think."

"The question of migration can break Europe apart," she said.

Ar you going to Europe or getting your blood work done
