tell him all. you are not a lawyer he should not have let you send that ridiculous appeal that gave up all your points. I told you he wanted a 100k for the job and would find a way to get there .

I will want a lawyer for my eventual hearing. But I figured I should get another lawyer at that point. Every time I send him something it costs me \$600 for nothing and I don't have the money anymore.

I figured it would be better to find a lawyer we both had faith in at this point. Unless you now think he is the man for the rest of the job.

let me think, 1 . I would think that the world got to vote on the trump presidency. and it votes by buying dollars . look at lira. venezuela brazil. india. europe. the world voted and the Us is way ahead. all the worry about tariffs, trade etc are reflected in the strength of the dollar.

2. all the talk about lower tax revenues misses the point . it is about the country's cash flow not internally generated revenue . billions of dollars came back from europe. , and into our system it is not reflected in tax revenue numbers. ex , if apple brings back 100 billion dollars and invests it , it does not show in treasury tax revenue figure

in addition , wage rise AFTER unemployment goes down. NOT before. ! trump first put the most disadvantaged the UNEMPLOYED first. . and with great success. can you imagine the attacks if wages went up , but the blacks and hispanics were still without work. He needs to be given TIME . the first play has worked. he believes in a winning game strategy, you can't judge it because he hasn't scored a touchdown from way in his own backfield. ( ball given to him by obama on his own 10 yard line ) he has moved the ball way up the field. and the dems can see the touchdown coming. yes there have been some fumbles along the way, no question. and some have been taken off the field. but the horror and the dems faces is they see the team has progressed in spite of all the yellow flags and cries of foul. There ( sic ) defense is maxine waters and nancy pelosi ) donalds offense is pompeo mattis and kelly. they don't have to like the quarterback they just have to win,

Lehman was caused by pelosi. because she is a true dope. she wanted a change in accounting , because she conflated her checking account with that of a govt. . a longer story . - i will go through the prime trading partners and their currency decline since you guys took office. . makes for quite a chart

however ill stick to economic advice. you might also point out that saudi sovereign wealth fund needed to borrow money. !!. they mistakenly and childishly think that the fact that they can borrow 10 billion dollars at not a very good rate showed strength. but in fact, like their fade in the tesla mess , illustrates they have no cash. . I think masa is japanese's for madoff

the other two areas. 1. dems scream trump deregulating where mnuchin has instituted the stricter KYC rules in history. The U S leads. how many working class americans would put their money in Switzerland today where the banks charge YOU . 75 basis points to keep it there. so many bad actors. 2, crypto needs to be thought of similar to the internet. intl agreements . coordinated understandings . otherwise it is a ponzi scheme outside of the law

I think you have ignored my advice almost every step of the way . as of course you are free to do. you didn't ask for his bill along the way so he fucked u. you hired him instead of a local . you have made yourself a pariah. asking for your airfare. instead of damages. ? wanting to reopen the aus investigations. tell me and justin that they couldn't wouldn't , . sending an apology to a victim. trying to dissect into small pieces and ignoring case. and perimeter. no testimony from lucy. . that being said, i might think about filing a court action at this stage . you told me last week how good you are with faculty .. blah blah, without understanding the mechanics of concialiton. tell m that this is HOW it should be . reporting. investigation . conciliation, . does little good. . I ask for strategy for weeks and you tell me every9ihg but

Thanks for the nice email to wake up to. The dean has taken the first slot so I will have to meet the committee second. Kimberley phone me last night and she said she thinks that is better because she can call me and tell me what the dean says and I can frame my statement accordingly. She expects the dean to simply say there can be no conciliation, which I agree is likely. I read her the Abor doc about the charge to the committee and helped embolden her to ask some tough questions of the dean. And she had some good ideas. But of course she has no expectations. She just said if he comes in not willing to negotiate at all and i come in showing willingness she thinks that may help me later in a lawsuit.

Anyway that is my news of the morning. Gonna work out and shower and then will call.
