it engages the audience that instinctually rejects pronouncements. . when he said he got the market direction wrong. you might respectfully ask didn't you also get wrong. and wouldn't you admit that your confident predictions re the election itself was way off the mark. so di you think your ability to predict has gotten better ?

How do the trees know it's fall
Weather isn't always the same
Do they track the moon?

I think animals and most other species have evolved around their sensory systems

We just don't understand them
