MIKYOUNG KIM DESIGN

"We embrace a collaborative approach to design that results in poetic and timeless landscapes."

For the last twenty years, Mikyoung Kim Design has crafted an exceptional body of work, spanning a wide range of landscape typologies in the United States, East Asia and the Middle East. The firm has developed a reputation for culturally significant design work that serves as a powerful tool to heal and enliven the public realm. Their work addresses pressing environmental issues, while celebrating the beauty of our collective human experience through the use of contemporary materials and technologies. Today, Mikyoung Kim Design's work is defined by a seasoned understanding of material detailing and a whimsical celebration of the transformative and healing power of the natural world.

Our work has received numerous national awards from the American Society of Landscape Architects, the American Institute of Architects, and the International Federation of Landscape Architects.

BENSLEY DESIGN

BENSLEY, is a small atelier of youthful energetic architects, interior designers, artists and landscape architects that know no limits. Based in Bangkok and Bali. Since 1989 BENSLEY, has been designing some of the world's most iconic hotels, resorts, spas, homes and sometimes even palaces.

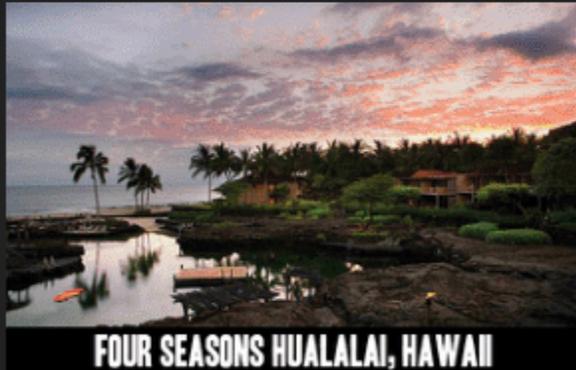

I believe that only mother nature creates paradise on earth. Each time we are presented a virgin site to transform into a resort I believe that no matter what we do with the site it will never be as good as what exists naturally. So, in turn, much of our work is determined by minimal intervention, meaning that we should learn how to build without destroying mother nature, by way of:

- 1) designing smaller architectural footprints that fit between the trees as opposed cutting them,
- 2) living with natural drainage patterns of the site
- 3) growing food and producing energy locally.

WATG

“DESIGN THAT TOUCHES THE SOUL”

We design places and spaces that bring our clients' vision to life and enrich the lives of those who experience our work.
Our designs reflect and preserve natural systems, and always strive to enhance the human experience sustainably.

Our global experience of creating landscapes that lift the spirit and balance the environments within which they sit is in demand by other design groups.
Landscape provides a huge opportunity to improve the places within which people live, work and visit.

JUNGLES

The firm's work is innovative yet timeless, proposing design solutions that respond to surrounding natural systems while restoring nature's balance and harmony on a micro-scale. RJJ's completed gardens personify timelessness and beauty, with verdant spaces that entice participation and soothe the psyche.

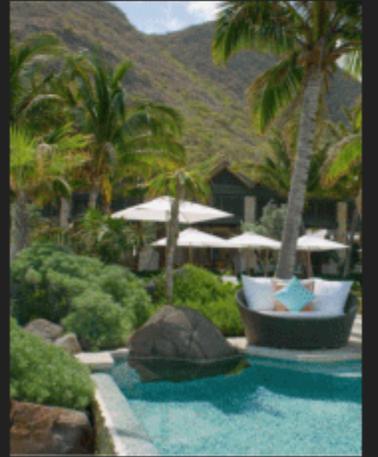

The firm's design priorities are generated by the scale and functionality of a space. Hardscape elements-simple, clean and well-detailed are the bones of a garden. Planting volumes vary and bold colors and textures are used with intent.

The firm is guided by Raymond's personal and design principles-integrity, relevance and honoring nature. The firm's informed designs tread lightly on the land, provide habitat and incorporate elements of surprise.
