Customer supplied design pressure requirements in request for quotation.

X No design pressure were supplied to EGS International LLC (EGS) in request for quotation. EGS cautions customer to check project design pressure requirements prior to pricing to your customer, since additional reinforcement or different glass interlayer requirements might need to be incurred which will result in additional cost increase.

All above frame sizes are final sizes, by customer accepting contract, customer has reviewed all information and accepts all frame sizes, glass tint, panel configurations and panel slides as shown above. Any changes after acceptance of contract will incur additional charges and will delay shipment of product.
