SD PRO®

Integrated Flight Operations Management Platform

Keep your flight department in-sync with the aircraft. SD's revolutionary SD Pro technology compiles the critical information your flight department needs and displays it in real-time, all from a single login. Your flight operations team can access multiple resources from their personalized SD Pro dashboard, saving time and effort. Whether you have one aircraft or an entire fleet, SD Pro helps manage it better.

- One fully integrated platform, saving time and effort
- Web-based and scalable for different devices
- A single access point for all of the functions listed below

- Syncs the aircraft with flight ops in real-time
- Customizable interface with simple drag and drop format

Module	Description
Dashboard	The dashboard is designed to be customized to fit the needs of each member of the flight department. Each team member can configure their personal dashboard to present them with the modules and information that are required to perform their duties.
Connectivity	Displays connectivity status for all services, provides usage alerts and notifications, and tracks voice and data usage by month, flight and duration. Reports can be downloaded for offline analysis and distribution.
Cyber Threat Monitoring	Real-time view of network security, potential threats, identified incidents, and actions SD has taken to protect data.
FlightDeck Freedom® (FDF)	Access every feature previously only available in the FDF Portal Application for easier self-service of all configuration items, alerts, messages and notifications. Send messages to the datalink display unit, view and download historical datalink messages.
SD Hardware	Shows status of the onboard SD Hardware including available networks and connection status as it automatically switches between providers. Tracks device connectivity and usage, also available via the SDR mobile application. SD Hardware is a powerful source of aircraft data, enabling the full functionality of SD Pro.
Support	Access 24/7 support team, view the SD Pro Users Guide, support documents, service forms and schedule Entry into Service (EIS) on-site training and technical support.
SD Flight Tracker	Real-time flight tracking including departures, destinations, ETA, altitude, and speed information. At-a-glance status view shows weather overlays including NEXRAD and worldwide satellite imagery.
Trip Support	Connects to Universal Weather and Aviation, Inc. trip planning and trip support services via a web-based version of uvGO.

SD Cyber Security Solutions: Firewall

Satcom Direct views cyber security with the utmost importance and for this reason, the SD Cyber Security Solution: Firewall will automatically be activated with your Jet ConneX subscription for an added layer of virus/malware protection to your aircraft. You have the option to opt out of this cyber security protection. To opt out of this protective service, please check the opt out box and initial, affirming you do not wish to receive the added SD Cyber Security Solution:

Initial: _____   I acknowledge the benefits of SD Cyber Security Solution: Firewall and wish to opt-out from this protective offering.

Proposal Acknowledgement

I hereby certify that I am, or I am duly authorized by the Customer to sign this proposal and the information in this proposal is correct and true. I agree that a facsimile or electronic copy hereof will be valid and binding for all purposes. In order to assist Satcom Direct, Inc. or its affiliates or subsidiaries (collectively, "SD") in establishing a line of credit, I authorize SD to obtain credit reports and other documentation from third parties I understand that SD's acceptance of this proposal is contingent upon SD's satisfaction with the credit review, and that SD may terminate service without further notice within thirty (30) days of this proposal if SD is not satisfied with my credit. I further understand and agree that, except as otherwise agreed by SD in writing, the Services and/or Equipment requested in this proposal will be provided by SD pursuant to the SD Terms and Conditions (as amended from time to time) available at:

██

☐ *I have read and understand and agree to comply with the above Terms and Conditions. I am authorized to sign this agreement on behalf of the Customer.*

Activation

All activations will be completed after the receipt of an online customer service agreement (CSA); to be provided separately. The online CSA captures critical activation data, such as technical specs for the onboard hardware.

Special Note: Iridium with Aircell SIM Cards
A Subscriber Service Agreement (SSA) will be requested from Aircell by SD. Upon receiving this form, please select SD as the Billing Agent. This will enable you to have a Global One Number, a Plane Simple account for managing your aircraft, and 24/7 Support.
