Begin forwarded message:

The announcement just finished, I'll have my newsletter out in a little bit. No iMacs, just laptops and a new app for AppleTV/iOS.

Here is the configuration I think JEE would most likely want:

15-inch MacBook Pro - Space Gray $4,299.00
2.9GHz quad-core Intel Core i7 processor, Turbo Boost up to 3.8GHz
16GB 2133MHz memory
2TB PCIe-based SSD
Radeon Pro 460 with 4GB memory
Backlit Keyboard (English) & User's Guide
Four Thunderbolt 3 ports
Touch Bar and Touch ID

██

The machine is available in Silver and Space Gray. ███ betting he'll want the darker.

JEE uses ~900GB of data, so we could reduce the cost of this machine by $800 if we dropped down to 1TB drive, but couldn't get by with the 500GB option. (The 2TB option is ridiculously expensive IMHO.)

If he wants to upgrade other staff, we probably want to keep them at 1TB or lower drives, or 13-inch models (I'll have configuration recommendations for that size soon.)
