My dear Jeffrey,

it became a tradition to share with you my most important life events! Once of my most cherished life experiences was my life in Geneva and it happened because of you! all these years after it was my big dream to come back, mostly because of different quality of life and beautiful nature! And today i am so close to my dream come true!:) Me , my husband, baby boy Jacob and our dog Bora Bora are having our trial time before moving here. Temporary we staying on the beautiful hill in France, 20 min. away from Geneva. it's been an amazing first week here...Valdas,my husband has lots of meetings regarding his cultural event plans and we both looking for a farm house in France to rent for a long term.Jeffrey, this period of my life is most beautiful, Jacob made us more brave , more clear about everything! I wish i could stop a time and stay in this moment longer...:) And what i really dreaming about is to see you one day! I could come to Paris by train while you there or you could come to Geneva when Valdas hoste a beautiful performance (actually he is doing Complexions ballet this March!)As I remember, you have a good memories from Geneva!:) we could visit a bench you spent the night on! I love your stories!!! i could listen and listen all over again!:) Sending you lots of love and gratidute. Thank you for many things!:)

our nest on the hill :)
