---

I understand,. About further correspondence

Matt just called me, he will put his comments in email form. Photos to follow later, due to High Security on ramp, Matt was unable to take photos of exterior or wheels wells.

Highlights from my conversation:

- wood in very good condition, has good clear coat
- headliner in great shape
- main entrance door slightly sun faded.
- gear and wheels wells very clean, since gear was overhauled last year.
- Matt was informed by the engineer showing him the BBJ, and offer of \$19M was made by an Asian buyer was turned down, Royal Jet preferred to continue to charter that aircraft.
- 1C check due next year budget plan of \$300k to \$500k
- Since the BBJ was former Head of state to Jordan, they spared no expense in Maintenance,
- Matt informs this BBJ was better deal than his purchase from Wynn.
- High time APU of 11,000 hours, due to Head of State history, the aircraft sat on ramp with APU running for many hours.
- Matt was very impressed with overhaul appearance of the aircraft.
- Two showers, one large mid cabin shower, and one Aft in VIP rear Lav.

There is NO mention of "NO Damage History" that I've come across, This should be confirmed

Thank you  
Larry

Dear Larry,

I confirm that Matt came to visit the aircraft today; we managed to get him through security with the help of our Director of Protocol.

Matt also met our Director Technical, Mr Husham Osman who has been answering several questions and who will send him further information and pictures later today.

I hope the visit was satisfactory and that your principal will be interested in putting forward an offer on the aircraft.

I had sent the attached draft to Mr Jeffrey a few days ago upon his request. Of course if you prefer to use another format or you want to change some of the conditions, that is up to you.

In any case I will be happy to submit your offer to our board for their review and approval and remain available should you have any questions.

Look forward to hearing from you soon.

Best Regards

**Claire Brugirard**

Sorry I'm driving. Now  
Matt flies a BBJ out of Dubai  
He's a close friend of mine thanks again Larry

OK Larry, that's fine.

By the way, can you confirm a person called Matt Brown would be doing a visual inspection of the aircraft on behalf of you and your principal?

He called me today and mentioned your name.

Best Regards,

Claire Brugirard

Dear Larry,

With regards to the difference in engine time; there was an engine swap done as part of a stagger program

Hope this clarifies and look forward to hearing from you on the way forward.

Best Regards

Hello Claire

Yes, I represent Mr. Epstein

The purchase company would be  
Thomas World Airways

I'll sign NDA and fwd post haste

Thank you for questions answered,,

I'm unclear on total engine time,,

Your engineering department stated,

Airframe and engines are on same cycle,

Your spec sheet stated 4800 and 11,000 hours total time on engines ?

Could you clarify?

Thank you

Larry

Dear Larry,

Whilst I gather the info you requested and possibly some pictures from our Engineer;

- Can you kindly confirm your full contact details including telephone nr and address, company?
- Are you representing Mr Jeffrey Epstein?
- Would you be willing to sign a short NDA Letter Agreement as attached which is in both parties' interest?

The aircraft just came out of A check which was done in Abu Dhabi and during which the Airworthiness Review was also done

Look forward to hearing from you on the above.

Many thanks

Best Regards

Claire,

Can you also send current photos of interior? Wood work detail, general condition.

I'd also like photos of the nose and main gear wheels and Brakes, also photos of the wheel Well area,,  
Close up shots, nothing fancy, I'm looking at general condition of these areas.

Even A current video of exterior close up and Interior taken with an iPhone would be helpful, please.

Thanks in advance,

Larry

Claire,

Thank you for clarifying your Controller ADD.

Could you answer the following questions:

1-Is A6-DFR on MSG-3 Maintenance program?

2-What maintenance facility does the Heavy inspections? (Such as Last C Check).

3-When was the Last shop visit / Engine inspection completed on Both Engines?

4-When is the Next scheduled Engine Shop visit?

5-Could you provide "Read Only" access to the Computerized maintenance program for me? I'm mainly interested in HPC Disc cycle life remaining.

6-Do you have a Maintenance Budget for the 1C inspection Due in 2017?

7- the 4A inspection was due August 08, 2016 where was that inspection completed? Would it be possible to review that invoice?

8-Are the engines "On Condition" or Hard time overhaul?

Best Regards,

Larry Visoski
