as i mentioned yesterday Bob is playing games with us
i am holding back getting vicious with him as that will do us no good
i will try to source through dave at reefco or potentially another vendor

I have found out we have some payment issues with our current vendor and have to clear them up before we can order. Still estimate 2-3 weeks after we place the order.
We are looking for alternate suppliers and will know more tomorrow.
If you wish us to return the wire, we will be glad to do so.
My apologies and thank you for your patience.

can you please update us on timing of parts shipping to LSJ
thank you

Rich
Parts are made in Midwest in 2 different locations, as best as I can ascertain.
With payment, we can proceed.
Once parts are in USVI , we can schedule site visit.

you were going to find out where part was made and how soon we can have it
when can someone visit LSJ to review our equipment?

please advise
