Dear jeffrey

I will take an appointment around the 10th of September with a contractor in NY to estimate the work, the details will be designed next week and the first couple of weeks before coming

IN the same time we will do an estimate for our part

Linda told me you do not come to Paris for the moment

I give you again my own email, I will work until the 6th of August but you can easily write to me, I will stay in France

I didn't send you photos of the mirrors hung this last Monday avenue Foch, I can imagine Walson did

The photos you have, where to hang them, we could put one in the main living in Paris where you have the convex mirror and put the mirror above the fireplace, the second one could go in your massage room,

I do not see where to hang the pair, even in NY
