Dear Jeffrey

I am not mad to send a project by mail but let's be different once

You have to buy the nice quality and perfect pieces of furniture, for example the 2 candelabras in the center of the windows will be in the sale auction of Robert de Balkany, in Sotheby's in September, they are uge, beautiful, the estimate is 120.000 €.

The fireplace is an antique one, expensive (560.000 €) but the dealer could make a copy or make a copy of another one he had, quite similar

I had to wait quite a long time the tiles sample, and the painting on the canvas, I am not completely happy with them but they can be easily improved, the blue on the canvas is not enough bright, but the quality of the painting is superb, the Italian lady who did it is a specialist for restoration of the most important Renaissance and 17th century painting

I am very happy with the colors of the tiles but the design must be improved, I should receive other samples next Monday. You must have a contract for the flowers, I didn't want to put too many plants on the rendering but you will need a pair of trees or more

The wood floor under the carpet will be tinted in 2 tones

I will give you more details during a meeting, to avoid you the reading of a book !
