Jeffrey,

I spoke with Mark Williams the Buyers rep.,

Mark informs he is willing to investigate FJTurbines in Miami regarding our former 12 HPC Discs that were scrapped due to corrosion. (Note:6 per side,,

We actually scrapped five per side and was issued credit on our invoice)

Mark is asking for our approval to use his services to further investigate FAR145 repair shops regs on their responsibility to store paper work in regards to scrap discs.,

I dont see a down side go further investigate Manny at FJTurbines handling of our engines,,

Larry Morrison also hired Mike Meire an outside Sales Rep to watch our engines during shop tear down,, to make sure discs or not scrapped by shops for resale purposes, this has been a common practice at some Miami shops.,

Jeffrey

Do you approve of Mark's investigation on our behalf?

I don't see a down side.

Thx

Larry
