Protect Your Password

Skype staff will NEVER ask you for your password via email. The only places you are asked for your password are

when you sign in to Skype or on our website if you want to buy something or check your account. You will always sign in via a secure connection, and we ask you to ensure that the address in your browser begins exactly like this **https://login.skype.com**. It should also show a little padlock symbol to indicate the secure connection.

Be alert to emails that request account information or urgent action. Be cautious of websites with irregular addresses or those that offer unofficial Skype downloads. Security updates and product upgrades are made available at **www.skype.com** or using the client's upgrade function.
