And I'd love to take care of you, but the bigger issue is if you will be willing to make the behavioral changes over time to really alter your physiology. It seems like you are sufficiently motivated, but I want you to know if you are. Take a look at the attached doc I put together a few months ago at the request of patients who wanted a summary of what I do. I actually just made some revisions last night. Please read the whole thing; it's only 1,000 words or so. The last line matters.
