Outside and inside are based on the idea that you are a body / mind
Awareness is that in which body mind and world are a shifting unified experience
Awareness is the only invariant in every changing experience of body mind universe . In awareness there is no
inside or outside
Will send dates of Prague
In a recording studio right now

no- i believe , possiblity waves collapse in consiouness , they exist outside. think of a shadow on the
ground of a ball. the ball exists , the shadow doesnt unless light goes around it. the shadow is the consious
all the photons move around the ball. the shadow is their sum and collapse

Possibility waves can only exist in consciousness

Particles are photos of perceptual moments - frozen space time events in consciousness

In every perception there is the illusion of matter
