Attachments: dice.png

hi jefrey,

..i found in my comp this picture (attached picture), a dice.., i save it when we were looking for something to do the outside of the five palms building at lsj.., but i forgot to tell you about at that time. anyway, i thought it could be an interesting idea for a building on top of a hill or something else.., a room inside of a dice..
it is just an idea..

best regards,
ion
