Afternoon Rich,

I believe the normal boat arrival time is 8 or 8:30 [REDACTED] in Redhook.  
Dan will be there.

Regards,

Brian Walden

Afternoon Richard,

We're still trying to have a final discussion with Stefan as well as track down multiple 128MB or smaller SD cards to reboot the Sunnyboy inverters. We're moving as quickly as we can in order to execute the conversion plan but it looks like we have to push to Monday. Dan has shown Michael how to get the system back up and operating in the event of it dropping offline and that is working for the interim.

Regards,

Brian Walden
