Reefco was a very cheap alternative and I was concerned that the scope of work that they were providing was not comparative and that they also were not experts in this area

My thought was to have TSG do one more visit in attempt to narrow their scope of work and also buy time to obtain computer codes

Concern I have is that once we leave TSG and do not have computer access then we will lose all leverage in ever making that happen

Danny had told Leighton and I he was working on obtaining codes and access so I assume this never happened

I will follow up with him

I just sent emails regarding TSG and VINGN

Reefco – not sure what open topic is as my understanding is last two items they worked on have been completed (STC AC and Gym AC) - please advise if there is something else that needs to be followed up with

TSG / RO Plant – not sure what open topic is as well – Bob Peterson in email just sent to you was asking to do a site visit with Anna and Danny on Sep 3 and then a call with me after there findings – I assume meeting never happening / we also need computer access if we chose to part with TSG

Hello Rich!

JE asked me to check how is everything going with:

Tsg

R/O Plant

VINGN

Reefco

Thank you!
