I don't understand why you react like this... I don't think I said something wrong to you and if I did I'm really sorry. I'm very happy and enthousiastic about going to Paris and starting school. Thank you. However, yesterday I had fever and still now I'm not feeling well. I know you don't like complaints and you always would like to hear me saying that I'm great all the time but I'm not from LA. Sorry, I would love to be always "positive thinking" but I am not this kind of person. Like every human being I have up and down moments and you should accept this. I am always thankful and greatful to you and I think you are great but you can't always blame me for everything I do. I always feel when talking to you that I'm walking on glass and that I should be carefull to every single word I say.... This doesn't make me feel comfortable. Instead of trying to understand things by talking about the problem you just interupt the conversation without giving any explanation. I understand that you have more power, doesn't mean you have to act like this with me.
