Attachments: Approved_Modification_to_Minor_CZM_Permit_CZT-53-04L.pdf

Hello Mr. Epstein,

Please see email below from Daphne. One more permit is waiting to be approved by David Rosa from CZM by end of September. Next week after the storm I will start to put together a construction cost spread sheet for all phases for your review.

Palm Beach proposals will be ready by Saturday afternoon - waiting for a few vendors to give timelines on their projects to Dan L.

Have a good night!

Leighton

Greetings Leighton,

As you prepare your presentation for Mr. Epstein, the status on the CZM permits are as follows:

The Modification to Minor CZM Permit No. CZT-53-04L was approved. The original permitted the construction of the existing generator and RO buildings, this modification allows the construction of what we are calling the Garage Roof building additions on top. I have attached a copy of the signed approval for your reference. We picked it up today. There are 2 copies, so one stays at STC and one belongs on LSJ. I will send it over tomorrow for you.

The Minor CZM permit application for what we are calling the New Maintenance and Woodshop Building is in process. Mr. Rosa had no questions or concerns to follow up with for Jaredian, so that permit is pending, probably end of September.

Kind regards, DW
