---

Hello Mr. Epstein,

Attached is a sketch of a shower layout that would work, shower head replacement, valve and handheld replacement options. The exact shower head, valve box, handles and handheld are discontinued.

Options for each are attached and are as close to the original as possible. Merwin found a used fixed shower head in NYC if you want to use this in Cabana 1. I am not sure why it was replaced or works?

Please review attached sketch and spec sheets. There is only enough room for a dual control valve for the fixed and handheld shower - please review plan and as always your comments and adjustments are most welcome.

Please note:

Daphne and I are still searching the web and making calls as someone may have old inventory.

We are also trying to get better pictures for you.

Best,  
Leighton
