stefan , the leather is old on the seat, it is not new. . the number of parts are irrelevant. . you can speak directly with my principal if you prefer. so there is no man in the middle. you told both of us that you had a brand NEW seat in california that you would air freight. . I dont know if it came in pieces or not. , the leather on the seat , is clearly not new. you can replace the leather if you like, you can show me a bill that reflects a brand new seat.

Look at the diagram then look at the seats. Nobody makes an Aftermarket seat for this! Its all factory and works exactly that way. call the dealer and see for yourself to verify.. It took days to get this right.. the dealers do not want to be bothered.. It's so many parts Plus so much work to put together.. It's all assembled piece by piece . To be honestly we lost money on that part of the JOB.. But I am not complaining. I Don't want be treated like [REDACTED] cheating someone.. 20 plus years in business in NYC With a stellar reputation . I got the JOB done exactly like described. I took care of all issues. Some could have been avoid because of the middle person loop we have.. I hope this helps..
