JE,

Confidential: Here's the list below.

Another possibility is I am going to try to pull off an Edge Science dinner that Sunday night (Aug 2nd) in SF. This would hopefully attract some of the players you would like to see. (What's come down in the last 8 years is that all of them have 2-3 kids aged 3 to 8 and summer weekends are increasingly important to them.)

[REDACTED]. I never received financials from my daughter-in-law. KM and I presume she wants to keep our grandchildren and her business (in which she already has investors and partners) separate. Fine with us. Thanks of course for your interest which goes beyond friendship into the realm of affection. Always appreciated.
