Hi Jeffrey,

I spoke to the owner to get the resumption of internet and land line service to the office (They put us at the top of the list). It appears that that was less complicated than getting service back on LSJ. Francisco Avela, the VIYA contractor, said that one of the hurdles was VINGN and I'm working on that aspect. Jermaine says that there are other, more technical issues.

With warm regards,

Cecile

Good day Boss

I have talked with VIYA and they still don't have a set date for the island's phone service. Therefore, Mr. Thomas and I found a temporary "stop gap" solution for the Phone System situation on LSJ.

The plan is to put an IP phone system base at STC.

Use 2 of STC lines to give LSJ temporary service.

Place the IP phones on LSJ at the Kitchen, the white table, and flagpole pool. At STC, 1 can be placed at your so you won't miss any call's going to LSJ.

Attached is some reading material for you on the system and phones.

Regards

Jruan
