I will take your word that you share my thick skin for criticism and share a strange pleasure in learning, even if it means having to accept that some formerly closely held beliefs might need strong correction. I have no particular knowledge re politics or history, so I will never offer an opinion. however re mathematics and or money , I feel on strong ground. That being said, thought puzzles in the paper are brilliant and insightful. the mathematical descriptions lack rigor , and the metaphors suffer from the common science limitation of trying to describe things using the engineering metaphors or the tools of the moment.ex. The human or its brain as a computer ., set theory . It was popular in the early 20th as you know to describe the body as an electric machine.. the mathematics used today in quantum show more promise , as it attempts to describe things that appear counter intuitive. or difficult to comprehend , (your displacement conjecture) your simple X and Y , Merge , is quite naive and unfortunately incorrect.

2. from the paper you sent. ; a much more elegant way of conveying what i had failed to do re sentences and money

European structuralism commonly adopted the Saussurean conception of language (**MONEY**) (in the relevant sense) as a social entity; as Saussure put it, a storehouse of word images (**values**) in the brains of a collectivity of individuals founded on a "sort of contract."
