Subject: Re: B727

I did not hear back from you regarding the Miami buyers questions so I took the liberty to answer the following;

*Sorry for the slow reply. I started a draft and became sidetracked. The aircraft has flown several times recently including one international. It is turnkey and ready to go. You will not be dissapointed. There is no payroll or debt specific to this entity so you will have no issues in this respect. What can we do to get this deal rolling? - HE HAS NOT RESPONDED*

RE: PONS, He sent me a whatsapp message a 10:30 Tuesday to ask if I was available to walk through the LOI. I did not get the message until Yesterday morning and responded I was available... he said he would call later but did not. I asked about the bank letter and he said he would send it when he was back in Mexico. I said "isn't it as easy as one phone call to your banker?" but he never responded.
