Larry,

The O2 system was checked, all the masks and lines. The troubleshooting identified a sleeve on a supply line that was leaking. The sleeve was replaced and the system re-serviced. this was accomplished on the 15th. Prior to departing on the 28th, the system was serviced for departure. It was not leaking prior to your departure, but I have gone ahead and removed the troubleshooting and repair time.

LARGE leak? now i'm in PBI with the same problem.
it would be easy for your guys to leak check this repair,
