I will confirm that Warrenty is honored at any Gulfstream facility,, I've already request an interior person to look at the plane at Jet,  
Also the CMC failed on this flight, this was repaired at Savannah before we departed, the CMC is computer that records engine and aircraft systems and sends this data to Gulfstream in Savanah and also Pete is able to view this info on his computer,, it's similar to a flight data recorder except it transmits this information via satellite.  
Gulfstream will work the CMC issue an I'll meet with Plane Perfect interior shop, they are Gulfstream Palm Beach sub- contractor for any interior work,

Thx
