Dear,

It is so beautiful out today; and I was thinking about you. The two might be connected.

As you know I don't very much like to ask the "how are you?" kind of questions; needless to say I hope that things are fine with you, and that you are happy

As usual there are many more things I'd like to communicate [to] you, and much fewer words to actually do so

Switching to practicalities (I can always find words for those), I got the nice video making practice here and looking forward to go traveling to neighboring cities for a landscape and people; Did not get the email back from [REDACTED] regarding money transfer though .

Your luck wishes seem to have worked just fine. I even get my own desk in a super-bright room

love

■
P.S.I just found out that JFK used to phone Judy Garland every night to make her sing "Somewhere over the rainbow" before he went to bed. I am still wondering what to make of it.

xx

p;p;s; surely sleeping in your t-shirt
