Jeffrey

attached a 4 slide powerpoint that accounts for all the money you gave me, spent from April 1 until September 5; i also have individual pictures of each of the pages if that is easier for your crew

i did use the money to pay off debts from the sprinting project—you know how easy it is to go over budget; i also took a short trip to Oakland to consult with Huey Newton's older brother Melvin regarding a possible book and i flew to Germany for about 12 days to try to master the evolutionary logic of cancer—a tough area to think through—4 of the world experts were at the Institute for advanced studies in Berlin and i learned quite a bit; the rest is research expenses, partly in the US, mostly in Jamaica

again, for a life-saving gift, completely unexpected and most welcome

please write me someday where and when i can find you for a meeting

all best

bob
