attached are emails stating the following:

- 1) we currently have 20k gallons of fuel in STT (18k with billy and 2k with jet center)
- 2) billy pricing still high at $3.16 + .75 = 3.91$ (gross receipts tax / billy profit / transportation & .10 uplift from hancock)
- 3) hancock all in pricing 3.28 (they believe prices are about to rise)
- 4) teterboro fuel negotiated today per larry 3.98 at Meridian

hancock will allow us to purchase in 10,000 gallon increments at 3.28
please advise if you would like to purchase fuel and if so how much

Richard,

You still have 18k in inventory in STX. Hovensa has yet to close the rack, they are still playing hard ball with the VI Govt. There is still upwards of 500,000 gallons that is there. I have been told it is essentially Bohlke's fuel since we are the primary purchaser. They rate has stayed high 3.16 I believe and due to come down soon. The expensive inventory should be exhausted soon. Our hope is that it will be reopened at a minimum as a terminal. With the low prices in oil now is really the time to hedge.

Please let us know if you would like us to send a tank your way.

Thanks
