Subject: for Kendall

Knowing the rape charge to be completely false and made up in whole cloth by their untrustworthy client, and failing to conduct even the most minimal of investigations, they deliberately inserted the charge in a court filing that does not request an evidentiary hearing or offer any proof of its alleged truth. Their purpose was to make this mendacious court filing so that the press would then cover it. By placing it in a court filing they try to cover themselves with a litigation privilege that would then extend to the press as well. This unethical tactic provides no real opportunity for the victim of the false charge to respond in any legal proceeding, since he is not a party to the lawsuit and the truth or falsity of the allegation is not relevant to its outcome. This tactic violates core ethical obligations of a lawyer to (FILL IN WORDS OF PROF. RESP. THAT DEAL WITH HONESTY AND INTEGRITY OF THE LEGAL PROCESS AND OF NOT MAKING UNFOUNDED CHARGES AGAINST JUDGES, LAWYERS....)
