it is not very good. for some reason it only comes to me in read only form. . 1. you will get a multitudinous response. and re. play all the past ones. buzz feed will go back and allege more and worse. . you cannot continue to rely on banned vs restricted. . you should not use first names. [REDACTED]. . one cant defame the community. ? its silly, they called my team names? . saying no real human being or person. ... not. a good idea. . . you are attacking the tabloid method attack, . and reporters . and girls. . and and adn. each one will feel a need to respond. you cant say no restriction but i check in with the head of physics.. ? the boat and nancy incident , simply says that both you and nancy deny approaching another girl. . so what.? since you mention the girl that has made slepci complaints . she needs to respond. . buzzfeed will do another article. and this time make clear allegations . you stress over and over being defamed !!!!. it is super silly, lbel. affirmative mal.. , It cant be a poor you story. . you are a public figure. . it must be about the facts and elack of true evidence if anything at all. . lets look at what you are accused of. ? ogling? making someone feel uncomfortable. . ? propositioning.? this is not assault. harassment means multiple incidents with the same person. not one time bad comment. . put the definitiaon of harsment in there, awkward, silly, clumsly one time incidents. not harassment. . making inappropriate joke on AN occasion. there is no louis ck moment. your fly remained in place. . a woman coems to myu room for dinner. she said i tried to kiss her , and she told her boyfriend that i made her uncomfortable. . yes, i tried to kiss her, and she said no, and that was it. . i am happy to have a forum , open to the public. where i might face my accusers and let the audience decide . the credibilitiy . ? I belive in a full dialouge of all ideas. no matter what the basis . or emotional charge. I am a universtlyh professor. for that reason. . Lets test the evidence. . In my lectures. on star trek, hundereds of peopel from different states have maintaingd that they have had contacts with aliens. . same claim over ten years. people that didnt know one another. . I always listen tot he claims. and have the audience put the evidence to the rigor of testings. . physical proof. ? volates. basic understanding. . witnesses. , etc. I am sypahteitic towards women and their past trevails. I would like to give them the benefitof the doubt. why would a women come forward if it were not true . ? I recognize the dilemma. [REDACTED], said it didnt happen. ? who is to be believed. the accuser or my friend. .

not a simple choice. . did I expose myself .? no. physically abuse someone. ,in a public place. . The climate is dangerous to defend onself. from false accusations. the balancne of respect and dismissal. The " I choose to beleive " is the basis of religious freedom. and one I support. our system of due process. innocneet. until PROVEN guilty , is and must be the way of society .

While waiting to get your revisions Adam, we have done a little more editing and re-arranging, especially to the first two pages, and to the last page.. We really would like to get this finalized in the next day or so if possible. We think that other than tightening language in the middle to reduce length, no other significant changes are required.
