Zoran can you please check.

In this video capture there is some info. I am copy and paste below. Can you find out if Brodarski Institute is still producing it or anyone is selling it?

Thank you

The Croatian motor boat M-46 is a high speed interceptor of the latest generation (the hull so-called step hull, with a novelty of a stern tooth (edge), which smartly regulates the tilt of the front part of the boat), meant for shock actions of exclusively special forces of the navy, special squads, and anti-terrorism forces, special police forces, on the broad costal region (to 400 nm, tactical operations 250 nm). It was developed in Brodarski institute LLC - Marine research & Advanced Technologies in Zagreb, who also tested it in the Mediterranean sea for 824 days in all period of the year and in all weather and sea conditions.

Jeffrey – Zoran is my best friend from Zagreb. We know each other 30 years (yes – I am that old ;)

Zoran is a real estate develop in Croatia (one of the biggest) but he also has a number of side business. One of them is boat rental company in Croatia.

Zoran has a fleet of boats – and he knows everyone there (it is a small country after all).

Please let him know what you need – you mentioned RIB boat manufactured in Croatia but Zoran had some question. He was wondering whether you are referring to some Juan Carlos' boat.

As I do not want to get lost in translation – it is the best if you talk directly.

All the best

Boris
