Jeffery – here is a new version of the email for your review/feedback as we discussed on yesterday’s call. Very open to further input on this to make it right.

As outlined, the plan now is for Bill to send this email in response to Boris’ note.

(response to Boris’ mail)

As Boris says, he and I have been discussing opportunities for him to identify, work with and make investments in early stage-companies doing breakthrough work in life sciences and technology. Boris has demonstrated a strong talent and passion for this but our business structure doesn’t allow for Boris to direct 100% of his time in this type of role. As such, we have been discussing and planning for an eventual transition that will allow Boris to fulfill this ambition.

Over the past 6 years with the foundation and the last 3 of those working directly with me, Boris has made a major contribution to our success. Now, with our programs established and working so well Boris has decided to start the process of taking this next career step. Although I am sad to see him go, he does so with my full support and confidence.

Boris has agreed to continue working with us through the end of the year to ensure a successful transition on the projects he is involved in.
