Jeffrey,

Attached is brochure for Sat/WiFi that works in conjunction with our GoGo wifi system.

It will provide internet access during our route from NY-LSJ.

\$71k for box and \$22k for antenna, plus installation. (List price, negotiable).

Something to consider for future installations on the GIV.

Also works Europe/Africa/Asia.

Thx

Larry

Dear Larry Visoski,

It was great meeting you Larry! Thanks for stopping by the booth today!

Attached is some information about Aircell and the Aviator product line.

Jim Huntoon, copied here, is our Aircell rep for the SE US. He can help you get more info regarding installation.

Let me know if you have any questions!

Dennis Hildreth
