Just FaceTimed with George. 2 Rows of pavers are out as you see the white sand. As they are digging hole forward they ran into pipes (after moving forward 1 foot )and electrical wire. Picture 6 below with shovel next to original pavers to pipes is 4 feet. George will call me back shortly as I asked him to spray paint new location and give us exact measurements of length, width and show how much grass on each side. He also said they can drop Areca in hole then FaceTime so you can see from all angles.
