Jeffrey

Rich mentioned you are thinking of using the 24 month drop dead Due date is April 1st, as a PreBuy for potential buyer,, however, we are also due the 72month in July, which most likely will be a preBuy requirement.

As you figure out the schedule for G550 work with Eric, [REDACTED] like to at least get an input date for the 24month Insp for the GIV.

Gulfstream quotes 5 day down time, [REDACTED] figure 10 working days in reality depending on items found during inspection.

Rusty quoted \$32,297 for the 24Month.

Should I commit to the 24month inspection on March 19th in Palm Beach or Possible Brunswick / Savannah?

Pls advise best date for the 24month?

Quote attached

Thx

Larry
