My mom is in Zurich / Switzerland and is being treated at the University Clinic Zurich (<http://www.en.usz.ch/>)

She is 68 years old and otherwise in good health, has had a relapse of AML and is currently undergoing chemotherapy with Dacogen.

She is planning on having a stem cell transplant as this seems to be the only viable option that could lead to a complete remission/cure of the leukaemia.

Full medical records are available.

Many thanks
David
