I am at a loss . Help me find a solution . I ask you to do something I believe I need. You choose not to do as I ask. If I ask again or point out that you have not done it you then say I am hurtful,mean,and rude. I usually say ok then I can't force you to , I love you ,have someone else do it

Cooking-typing-hostessing...shampoo buying and xxxxxcxc. You make a choice and then resent the necessary consequences. You choose not to do as I ask you always have what you consider to be a reason . I thanked you for your tuna sandwlich , it was easy -you did as I asked . I make a point to thank you . I can't say the same for you , when was the last time you said thank you fir anything to me.
