Im thinking about forming a church structure if preaching/politics rules apply. :) . or a Distributed LC3 . (straddles property and charity.). beware gift taxes on donations. very tricky to 501 c4 if property. bundling rules. even funnier.

it is not the same- foundations like people are all not created equally. :) . unlike cash the contributor could be setting themselves up for problem (tax) on contribution. ! If I were you , I would consider leap frogging these old patriarch created structures. there are many parameters to your issue and each parameter has some iterations. - BTW Noam Chomsky yesterday referred to me as the Swiss Army Knife of finance. . not sure the standard 501 c4 is a pinnacle of todays possibilities. recall bitcoin is inherently anoymous and bearer like. ., currently impossible to establish jurisdiction . custodianship./ insurance. / agreed valuation/ regulation. The film looks like sooo much fun.! .

Having our fec lawyers check all this but think 'property' is fine as folks donate real assets all the time--this is same as a foundation ---when I save 'have' I mean we take it as a donation and then use it on support of building out this grassroots army , unless you are saying we start to issue our own

Btw we would call it 'the citizen'

How do we launch the c4 'Citizens of the American Republic' by announcing we have \$100 million worth of bitcoin--- that announcement alone will cause a complete meltdown of the political world

You might call the new coin a "Wee"

As in “we “the people

You can , and should , set up A “DAF “ , a donor advised fund (charitable deduction “ for the causes important to the deplorables . Look at cooperative structures for exchange within communities and research campaign finance with coins.
And that’s -just the start

Film sounds fun
